

EUROqCHARM Final Conference

Closing remarks

This project has received funding from the European Union's Horizon 2020 coordination and support action under grant agreement No. 101000805 (EUROqCHARM).
This output reflects only the author's view and the European Union cannot be held responsible for any use that may be made of the information contained therein.

Final Conference Highlights

- EUROqCHARM developed concepts (RAPs/TRLs) that are being utilised by both the international research community, expert groups and standards organisations. *Legacy product*
- EUROqCHARM reference materials have attracted a lot of interest and will be used for future ILC validation of ISO/CEN standards.
- EUROqCHARM has established an extensive network and continues to engage in working groups within Europe and internationally.

Final Conference Highlights

- In terms of capacity building, monitoring is important, but prevention makes a difference with face-to-face interactions and education being the keys to success.
- EUROqCHARM has brought together a community of people for collaboration and coordination across multiple processes and organizations.
- EUROqCHARM has created a legacy that will live on long after the project period.

What's next for EUROqCHARM

- Usage and implementation of EUROqCHARM's knowledge and experiences on a global scale will support the Global Plastic Treaty, and now will support the EU's Green Deal.
- Contribute to international position papers, and own publications:
 - Special collection in microplastics and nanoplastics
 - Zenodo Community
- Provide input through the new MAP mechanism highlighting the gap identified by EUROqCHARM.
- We will look at the calls suggested by the EC.

Thank you's

Last but not least
