4. Bodemtype
5. Bodemvochtgehalte
6. Risico op bodemverdichting (Kleurencode)

The screenshot shows the 'Kies een machine' (Choose a machine) screen. On the left, there are icons for various tractor models: 330 PK trekker, 170 PK trekker, 90 PK trekker, trekker met rupsen, and another trekker met rupsen. A red arrow labeled '1.' points to the 330 PK trekker. Below these are icons for different implements: Bietenrooier, Maaidorser, Hakselaar, Aardappelrooimachine, Zelfrijdende spuitmachine, Meststrooier, and rups maaidorser. A red arrow labeled '2.' points to the Meststrooier. In the center, a large illustration shows a 330 PK tractor with a fertilizer spreader. Below it, there are icons for tire patterns. A red arrow labeled '3.' points to the tire selection area. On the right, there is a list of other implements: Bietenrooier, Grote balenpers, Meststof, Tweeassige platte wagen, Kunstmeststrooier, Spuitmachine, Aardappelrooimachine, Meststrooier, Meststrooier, and Eenassige platte wagen. At the bottom, there are sliders for 'Aanbevolen druk [bar]' (set to 1.2) and 'last [kg]' (set to 6000).

The screenshot shows the 'Informatie over locatie' (Location information) screen. It displays two tables of soil data. The first table, 'Bodemtextuur' (Soil texture), has columns for depth, clay, silt, sand, organic matter, and density. The second table, 'Bodemvocht' (Soil moisture), has columns for depth and water potential. A red arrow labeled '4.' points to the 'Bodemtextuur' table, and another red arrow labeled '5.' points to the 'Bodemvocht' table. The interface also includes navigation tabs like 'Kies een machine', 'Beschrijf locatie', 'Resultaten: Contactdruk', and 'Resultaat: Profiel van bodemsterkte en grondspanning'.

The screenshot shows the 'Resultaat: Profiel van bodemsterkte en grondspanning' (Result: Profile of soil strength and stress) screen. It features five graphs showing soil strength and stress profiles for different tractor configurations: 330 PK trekker Vooras, 330 PK trekker Achteras, Meststrooier Vooras, Meststrooier Middelste as, and Meststrooier Achteras. A red arrow labeled '6.' points to the graphs. Below the graphs, there are sliders for 'Aanbevolen druk [bar]' and 'last [kg]'. The interface also includes a legend for soil strength and stress profiles.
