

MARINE RELATED ANALYSES

Water

Product	Code	Parameter	Test method	Accreditation status
Water	CRL015	Geosmin + 2-methylisoborneol	In-house method	AC

*Accreditation status: AC= accredited (BELAC 315-TEST)

Sea water

Product	Code	Parameter	Test method	Accreditation status
Sea water	MTL007	Algae density	In-house method	NA
Sea water	MML004	Identification microbial communities	De Tender et al. 2015	NA
Sea water	NTL008	CTD - Conductivity - Pressure - Speed of sound - Dissolved oxygen - Salinity - Temperature - Turbidity	In-house method	NA
Sea water	NTL008	Test kit Water Quality - Ammonium - Carb hardness - Conductivity - Phosphate - Nitrate - Nitrite - pH - Redox - Temperature - Oxygen	In-house method	NA
Sea water	MGL001	e-DNA metabarcoding	In-house method	NA

*Accreditation status: NA = not accredited
